About Me

I am an undergraduate Computer Science student at Texas A&M University, with Intermediate-level skills in Python and C++. Passionate about solving real-world tech problems, I am eager to enhance my skills and contribute to innovative projects while developing leadership and problem-solving abilities.

Experience

Kumon Learning Center, West Carrollton

Grader (August 2022 – May 2023)

- Graded students' assignments and provided detailed feedback to improve their math and reading skills.
- Assisted instructors in managing student progress and maintaining accurate academic records.
- Monitored student performance to ensure learning goals were being met.
- Created a positive and engaging learning environment by encouraging students to develop independent learning habits.

Education

May 2023
Hebron High School
High school diploma

I earned my foundational high school diploma in May 2023 from Hebron High School, graduating with a 3.75 GPA. Throughout my time in high school, I consistently demonstrated strong academic performance and a commitment to learning, which has prepared me well for my college studies.

2023 - Present
Texas A&M University
Bachelor

I began my college journey in August 2023 at Texas A&M University, where I am currently a sophomore majoring in Computer Science. I am passionate about technology and problem-solving, and I am eager to further develop my skills in programming, software development, and data analysis.
